MATERIAL SAFETY DATA SHEET

NKY[®] K30L30

Date/revised: 09.30,2009 Version 3.00

1. Substance/preparation and company information

Product Name: NKY[®] K30L30

Manufacturer : Boai NKY Pharmaceuticals Ltd.

Add: No.9 Zhongshan Road, Boai County, Jiaozuo City, Henan Province, China

Tel.: 86 391 8696320, 8610682, 8610683

Fax: 86 391 8692950

International Office: Tianjin Boai NKY International Ltd.

Add: Suites 1808-9 Guohua Building, 857 Dagou-Nan Road, Hexi District, Tianjin, China 300200

Tel: 86 22 58316066 Fax: 86 22 58316068

Emergency Call: 86 22 58316066

2. Composition/information on ingredients

Chemical nature: Homopolymer of Vinylpyrrolidone, in water solution form.

Components: 2-Pyrrolidinone, 1-ethenyl-, homopolymer; water

CAS-No. 9003-39-8, 7732-18-5

Synonyms: PVP (INCI-Name)

3. Hazard identification

No particular hazards known.

4. First aid measures

Eye Contact: Flush with copious amounts of water at least 15 minutes.

Skin Contact: Wash thoroughly with soap and water.

Ingestion: Do not induce vomiting, slowly dilute with enough water or milk and seek medical attention and never let an unconscious person eat or drink anything.

Inhalation: Keep patient calm and remove to fresh air and get medical attention if cough or other symptoms develop.

5. Fire fighting measures

Flash Point(C): Not determined.

Suitable extinguishing media: water spray, carbon dioxide, and all standard firefighting media.

Unusual fire/Explosion Hazards: Unknown

The substances/groups of substances mentioned can be released in case of fire.

Special protective equipment: In case of fire, wear full protective clothing and self contained breathing apparatus.

Further information: Dispose of fire debris and contaminated extinguishing water in accordance with local regulations.

6. Accidental release measures

Personal precautionary measures: Avoid dust formation and use appropriate protective equipment.

Environmental precautions: Do not discharge into drains/surfacewaters/groundwater.

Methods for cleaning up: Sweep/shovel up, contain spill with sand or other inert materials.

7. Handling and storage

Handling: Wash thoroughly with soap and water after handling.

Protection against fire and explosion: Avoid dust formation. The product is capable of dust explosion. Take precautionary measures against static discharges.

Storage: Keep containers tightly closed when not in use. Stored in a cool, dry place, out of direct sunlight. Best control the temperature not exceeding 25°C.

8. Exposure controls and personal protection

Engineering Controls: Use in a well ventilated area

Respiratory protection: Use in a well ventilated area.

Hand Protection: Use gloves as a standard industrial handling procedure.

Eye Protection: Safety glasses.

9. Physical and chemical properties

Form: Liquid

Colour: Clear and colorless to slightly yellowish

Odour: Slight intrinsic odor

pH: 3.0-7.0 (5% Water Solution)

Specific Gravity(25°C): 1.062g/cm³

Boiling Point: Not determined

Melting range/Freezing range(°F): 27.1

Vapor Pressure: Not determined

Solubility: Soluble in water and a variety of organic solvents.

10. Stability and reactivity

Chemical Stability: Stable under normal conditions of handling, and transportation

Hazardous Polymerization: will not occur.

Conditions to Avoid: Keep away from heat, sparks and flame, Minimize dust generation and accumulation.

Materials to Avoid: Strong oxidizing agents, Strong reducing agents.

Hazardous decomposition products: Oxides of nitrogen.

11. Toxicological information

Information on: 2-Pyrrolidinone, 1-ethenyl-, homopolymer; water

LD50/oral/rat: > 10,000 mg/kg

Sensitization:Human Ript:Non-sensitizing (as sold)

Mutagenicity:Non-Mutagenic.

Reproductive/Developmental:Various studies of the reproductive toxicity of PVP produced no evidence of embro toxicity of teratogenicity.

Skin irritation:Nn irritating (Human RIPT)

Eye Irritation:Non irritating to eye.

Further information:exposure up to 10% in the diet no signs of toxicity.

12. Ecological information

Biodegradability:readily biodegradability:not readily biodegradable(11% in 28 days).

Bioaccumulation potential:*Based on its structural properties, the polymer is not biologically available. Accumulation in organisms is not to be expected.*

13. Disposal considerations

Disposal of Waste Method:Flollow all applicable community,and Observe national and local legal requirements.

14. Transport information

Not classified as hazardous under transport regulations (ADR RID ADNR
IMDG/GGVSeeICAO/IATA)

15. Regulatory information

This product is not classified as hazardous under the terms of EEC directive 67/548/EEC,UN regulations or the European ADR/RID agreements.

16. Other information

The information contained herein is based on the present state of our knowledge and does not therefore guarantee certain properties.Recipients of our product must take responsibility for observing existing laws and regulations.
